

# E**T**ouch

Premium high performance touch displays

Our ETouch series features extra thin high quality capacitive touch displays. They come equipped with a wide array of sensors, for various applications depending on customer needs.

Develop your own application for the MEC displays or let us provide you with a tailored solution for your needs.

## Hardware

- 4'', 5'', 7'', 10'' IPS Display
  - 24-bit color resolution
  - capacitive touch
- Dual-Core ARM™ Cortex-A7 CPU
- ARM™ Mali400 MP2 GPU
- 4 - 8Gbit DDR
- 4 - 64GB eMMC
- Optional RGB light

## Sensors

- Temperature/Humidity
- VOC
- CO<sub>2</sub>
- Ambient light

## Interfaces

- Flush or surface mounted backplates
- 230V or 10-36V AC/DC
- RS485, Ethernet, Relais
- universal IO
- WIFI 802.11 b/g/n
- MQTT
- Amazon Alexa binding
- Apple Homekit
- Optional
  - NFC, ZWave
  - DALI, KNX
  - Open Therm
